

EMPOWERING YOUNG MINDS. BUILDING TOMORROW.

Future-ready learning solutions in
Robotics, AI & ML, AR & VR
and **Lab Setup** for Schools.

ROBOTICS

Hands-on kits that
build innovation and
problem-solving.

AI & MACHINE LEARNING

Smart learning for
the next generation
of innovators.

AR & VR

Immersive experiences
that make learning
engaging and real.

LAB SETUP

Complete lab solutions
to empower schools
for the future.

INNOVATE. BUILD. TRANSFORM.

Innovate. Build. Transform.

EMPOWERING YOUNG INNOVATORS

Future-ready learning today.
Limitless impact tomorrow.

Rygen Dynamics delivers future-ready learning solutions that inspire students to explore, create, and lead in a technology-driven world.

OUR STEM FOCUS

SCIENCE

Explore the world through inquiry and experimentation.

TECHNOLOGY

Learn coding, automation, and digital systems.

ENGINEERING

Design solutions and build real-world prototypes.

MATHEMATICS

Apply logic and problem-solving in every challenge.

FUTURE-READY LEARNING SOLUTIONS

CODING & SOFTWARE
DEVELOPMENT

ROBOTICS &
AUTOMATION

ARTIFICIAL INTELLIGENCE
& MACHINE LEARNING

VIRTUAL & AUGMENTED

Lab Solutions

Teacher Training
& Support

Future-Driven
Mindset

Innovate. Build. **Transform.**

Rygen Dynamics delivers end-to-end **STEM** learning solutions for schools, helping students unlock their potential and become future-ready innovators.

We empower young minds with practical knowledge in **Robotics, Coding, AI** and emerging technologies through engaging, project-based learning experiences.

Our integrated programs, modern lab solutions, and hands-on kits are designed to build **curiosity**, encourage **creativity** and solve **real-world challenges**.

Together, let's inspire the next generation of **innovators** and create a **smarter, better tomorrow**.

MISSION

Our mission is to build an ecosystem focused on leveraging technology in education where **Robotics, Coding, Artificial Intelligence** and **AR/VR** are utilized as powerful tools to help students think smarter, learn better and solve real-world problems with confidence.

VISION

Our vision is to empower K-12 students across the globe with 21st century skills and nurture them to become innovative thinkers, problem solvers and future leaders. We aim to build strong foundations in **Logical Thinking, Creativity, Computational Thinking and Problem Solving**.

OUR CORE STRENGTHS

FUTURE-DRIVEN
MINDSET

WHAT WE OFFER FOR K-12 SCHOOLS

Rygen Dynamics provides future-ready learning solutions that empower students to explore, experiment and innovate with confidence.

BUILDING FOUNDATIONS FOR TOMORROW

As a new-age EdTech company, we are focused on delivering high-quality, practical and affordable learning solutions that make emerging technologies accessible to every student.

SCIENCE LAB SOLUTIONS

Hands-on kits and experiments that spark curiosity and discovery.

ROBOTICS SOLUTIONS

Practical robotics kits that build creativity, logic and problem-solving skills.

CODING SOLUTIONS

Engaging programs to learn coding and software development step-by-step.

AI & IOT SOLUTIONS

Introduction to Artificial Intelligence and IoT through real-world applications.

MACHINE LEARNING SOLUTIONS

Foundational ML concepts with simple and interactive tools.

AR & VR SOLUTIONS

Immersive AR/VR experiences for interactive learning.

PRACTICAL LEARNING

Hands-on activities that build real skills.

STUDENT CENTRIC

Designed to engage and inspire young minds.

FUTURE READY

Aligned with the latest technology trends.

RELIABLE SUPPORT

Guidance and support at every step.

OUR PROMISE

We are just getting started on our journey to empower schools and students with the right tools and knowledge to succeed in a technology-driven world.

LEARN

Explore new concepts

BUILD

Create and experiment

INNOVATE

Think, design and improve

SUCCEED

Shape a better tomorrow

RYGEN
— DYNAMICS —

Innovate. Build. Transform.

A NEW BEGINNING

Rygen Dynamics is committed to creating a strong ecosystem for innovation and excellence in education.

FUTURE-READY STEM EDUCATION

FOR TOMORROW'S INNOVATORS

WHAT WE DO

Future-Ready Education

Preparing students to thrive in a fast-evolving, technology-driven world.

Skills for the 21st Century

Building innovation, curiosity, creativity and critical thinking.

Empowering Young Minds

Helping students become confident thinkers, creators and problem solvers.

Aligned with Education Goals

Our solutions support NEP 2020 and modern learning outcomes.

HOW WE DO IT

We deliver integrated and hands-on learning solutions that make technology understandable, engaging and impactful.

PRACTICAL LEARNING

Hands-on activities and real-world projects to build strong concepts.

MODERN & SCALABLE

Easy to implement solutions designed for schools of all sizes.

SUPPORT & TRAINING

We provide guidance, training and continuous support at every step.

MATHEMATICS

A NEW BEGINNING

Rygen Dynamics is on a mission to empower schools and students with meaningful technology education for a better tomorrow.

Together, let's inspire, innovate and build the leaders of tomorrow.

WHY INTEGRATED STEM PROGRAMS ARE ESSENTIAL FOR THE FUTURE

Preparing today's learners for tomorrow's opportunities.

WHY STEM?

- ✓ Builds strong foundation in core future skills.
- ✓ Encourages curiosity, creativity and innovation.
- ✓ Prepares students to solve real-world challenges.

FUTURE JOBS

The World Economic Forum predicts that 65% of children entering primary school today will work in jobs that don't exist yet.

SKILLS ARE CHANGING

According to McKinsey, by 2030 nearly 300 million people may need to switch jobs and learn new skills.

EDUCATION MATTERS

The U.S. Department of Education emphasizes that skills like critical thinking, information literacy and collaboration are more important than ever.

GLOBAL COMPETITION

Countries investing in STEM education are preparing their students to lead and innovate in a rapidly changing world.

Early exposure to STEM and hands-on learning equips students with the 21st century skills needed to thrive in a global, technology-driven economy.

WHY HANDS-ON LEARNING?

- ✓ Helps students learn by doing and exploring.
- ✓ Improves understanding through experiments and real-life tasks.
- ✓ Builds confidence and practical knowledge.

WHY DESIGN THINKING?

- ✓ Encourages students to question, explore and ideate.
- ✓ Develops flexible and open-minded problem solvers.
- ✓ Helps students thinking critically and finding better solutions.

The future belongs to those who can think, adapt and create.
Let's build that future together.

SKILLS FOR TOMORROW

- Critical Thinking
- Communication
- Creativity
- Problem Solving
- Perseverance
- Collaboration
- Innovation
- Social Skills

OUR COMMITMENT

Rygen Dynamics is on a mission to make quality STEM education accessible and impactful for schools and students everywhere.

TOGETHER,

let's inspire, empower and create future-ready learners.

OUR OFFERINGS FOR EDUCATORS & PARTNERS

Empowering educators, institutions, and organizations to inspire the next generation of innovators.

STEAM & ROBOTICS

Our STEAM & Robotics program helps students explore the world of science, technology, engineering, arts and mathematics through hands-on activities. Students design, build and program their own robots while developing problem-solving, teamwork and engineering skills for real-world applications.

CODING & ARTIFICIAL INTELLIGENCE

We introduce students to the world of coding and AI through fun, interactive and project-based learning. From block coding to advanced concepts, students create apps, games and smart solutions while building logical thinking and computational skills.

AUGMENTED REALITY & VIRTUAL REALITY

Our AR/VR solutions create immersive learning experiences that bring concepts to life. Students can explore 3D models, simulations and virtual worlds that make learning more engaging, interactive and easy to understand.

INNOVATION & MAKER LAB

Our Innovation & Maker Lab encourages students to ideate, design and prototype their ideas. Through hands-on experiments and open-ended projects, students develop creativity, critical thinking and the confidence to become future innovators.

CURRICULUM ALIGNED

Designed to support modern educational standards.

HANDS-ON LEARNING

Practical activities that build strong concepts and skills.

FUTURE READY

Prepares students with skills needed for the 21st century.

TEACHER SUPPORT

Training and resources to help educators succeed.

SAFE & RELIABLE

High-quality, safe and reliable solutions for every school.

OUR OFFERINGS FOR EDUCATORS & PARTNERS

Empowering educators, institutions, and organizations to inspire the next generation of innovators.

EDUCATORS TRAINING PROGRAM

Our comprehensive training programs help educators enhance their STEM teaching skills through hands-on learning and expert-led sessions. We provide practical training in robotics, coding, AI and more to ensure educators stay ahead in delivering future-ready education.

WORKSHOPS & WEBINARS

Our interactive workshops and webinars bring the latest advancements in STEM to educators and students. From hands-on project-based learning to emerging technologies, our expert sessions spark innovation and build future-ready skills.

CORPORATE SOCIAL RESPONSIBILITY (CSR)

We are committed to making quality STEM education accessible to underprivileged children and communities. Through our CSR initiatives, we support government schools, provide learning resources and conduct hands-on programs that inspire curiosity, creativity and confidence in young minds.

PERSONAL ADVANCED TRAINING IN ROBOTICS & AI/ML

We offer specialized advanced training programs for educators and professionals in Robotics and AI/ML. Learn to design intelligent systems, work with AI models and apply real-world solutions through deep, practical and hands-on learning.

PARTNERING FOR IMPACT. BUILDING FUTURE-READY GENERATIONS.

EXPERT-LED PROGRAMS

Industry experts delivering high-impact, practical learning experiences.

PRACTICAL & HANDS-ON

Real-world activities that create deep understanding.

COMPLETE SUPPORT

End-to-end support through every step of your journey.

SCALABLE & SUSTAINABLE

Programs built to scale and deliver long-term impact.

TRUSTED BY EDUCATORS

Partnering with schools and institutions across India.

SHAPING TOMORROW'S INNOVATORS

STEM Education | Robotics | AI & ML | Coding | IoT | ATL Labs

At **Rygen Dynamics**, we deliver future-ready STEM programs that inspire curiosity, ignite innovation, and empower students to build solutions that make a difference.

OUR METHODOLOGY

Our CIC Methodology and Design Thinking approach form the core of all our STEM programs and curricula, driving impactful and future-ready learning experiences.

CONSUMER

Activity-based Learning (ABL)

INNOVATOR

Project-based Learning (PBL)

CREATOR

The proprietary **CIC (Consumer > Innovator > Creator)** methodology is meticulously designed to guide students through a progressive journey, commencing as **consumers** and advancing into **innovators** and ultimately becoming **creators**. Students embark on their journey by engaging as **consumers**, working with various DIY kits and coding platforms to perform activities crafted around real-world scenarios. This **Activity-based Learning (ABL)** assists students in ideation and growth as innovators, encouraging them to think outside the box. Ultimately, students transform into **creators**, gaining the capability to innovate and drive change in the world by addressing real-life problems aligned with **UNSDGs** through **Project-based Learning (PBL)**.

DESIGN THINKING APPROACH

We use the Design Thinking approach to empower students to solve real-world problems with creativity and purpose.

02. DEFINE

Analyze the problem and identify the core issue.

01. EMPATHIZE

Understand the users, their needs and the real problem.

06. IMPLEMENT

Implement the best solution and create real impact.

03. IDEATE

Generate creative ideas to solve the defined problem.

04. PROTOTYPE

Build and experiment on ideas to create a tangible solution.

05. TEST

Test the solution, get feedback and refine it.
